

# HETEROPHONIC HOMOGRAPHS

**Find the pronunciation of the homographs by identifying the Part of Speech of each.**

**Then use IPA to annotate the different vowel sounds for each word pair and identifying the type.**

Type 1 are parts of speech shifts: nouns (1st syllable) to verbs (2nd syllable) and adjective (2<sup>nd</sup>+ syllable).

Type 2 include vowel changes or consonant drops or changes, usually “s” to “z”.

Type 3 include syllable reductions.
